LOMOND, ALBERTA, FRIDAY, SEPT. 17, 1920

\$1.00 PER YEAR.

Minutes of Council and Court of Revision

Minutes of a meeting of the council of the Municipal District of Clifton held in the U.F.A. Hall, Travers, on Monday, Sept. 13th., there being present J. Rodgers, reeve, and councillors Hornberger, Barnett, Hardy and Hobberstad.

As notifications had been sent out announcing a court of revision to be held at this meeting the reeve called the council to order as a court of revision at 2:30 p.m.

The first appeal to be heard was that of N. H. Foster on the N.W. 1/4 17-15-19, after hearing his arguments a motion by E. R. Barnett was carried ordering the assessment to stand as made, viz: \$20 per acre.

Mundy, Scott & Bowman appealed against assessments on lands in 14 and 15, range 21, Mr. Bowma appealing for a reduction of 20%, or \$2 an acre. A motion by I. Hobberstad was carried disallowing the appeal.

E. Williamson's appeal against the assessment on the S. 1/4 of 8-15-21 was sustained. On a motion by G. Hardy the assessment was reduced to \$15 per acre.

The appeal of Mrs. Berg on the S.W. 1/4 14-20 was disallowed, a motion to this

effect being made by G. Hardy.

The appeal of W. B. Wiest against the assessment on the S.W. 1/4 30-14-19 was also disallowed, on motion by E. R. Barnett.

The appeal of R.L. Elves against the assessment on the S. E. 1/4 32-15-20 was disallowed, on motion by I. Hobberstad.

The appeal of G. Tomberg against the assessment on the E. 1/4 9-16-20 was disallowed, on motion by G. Hornberger.

The appeal of W. A. Teskey against the assessment on lots occupied by him in the Hamlet of Travers was disallowed, on motion by E. R. Barnett.

o o o

The reeve then called the regular meeting of the council to order at 4 p. m. Minutes of previous meeting were read and approved.

T. A. Creighton, being given permission to speak, brought up the question of the liability of himself and other ratepayers to the Municipal District for seed and relief advances. This matter was then very fully discussed by the council and resulted in the following motion, sponsored by E. R. Barnett:—That we allow ratepayers who have liabilities to this Municipal District for seed grain and relief advances, and who are unable to fully meet the said obligations, to retain from the proceeds of their crops, after retaining seed for 1921 seeding, as follows:—

For 1 or 2 persons in family.....\$500

For 3 or more persons in family.....\$625

—to be used for living expenses and on

TRAVERS, Alberta

the understanding that they do not receive any further seed or relief advances from this municipal district before the next crop is off the ground; and the balance of the proceeds of their crop to be paid to the municipal district to apply as payment on their indebtedness to this district for seed and relief advances; and that, should it be found necessary, they renew their liens to apply against their 1921 crops; provided however, that the above receives the approval of the Minister of Municipal Affairs. Motion was carried, I. Hobberstad voting against.

The question of a road on the west

side of Snake Valley and known as the Champion trail was brought before the council's attention by a few of the ratepayers in the section interested, who stated that the present road was in the wrong place and should be moved should be moved half a mile further north and the present road closed. Mr. Hardy made a report on the same subject following a petition received by the council some time ago, and reported that the road as suggested was an improvement over the old road, provided we can get the consent of the owners of the land through which the new road would pass. This question was thought by the members to be too big a matter for the council to handle and the Secretary was instructed to take the matter up with the Department of Public Works and endeavor to have them deal with it.

The question of stock running at large was considered and it was thought advisable to have the by-law to read so as to make it unlawful to have animals at large within this municipal district at any time of the year. It was moved by G. Hornberger that the Secretary draft a by-law along these lines and submit it to the Minister for approval.

Moved by J. Rodgers that the Secretary draft a resolution with reference to the privileges of franchise along the lines laid down at the public meeting held in Travers on June 30th., and submit same to the secretary of The Alberta Association of Municipal Districts to be brought before the next convention. This is an endeavor to overcome the disfranchisement occasioned by the non-payment of taxes. As it now stands a ratepayer more than one year in arrears with his taxes is not entitled to vote at municipal elections.

The estimated expenditure was gone into and it was moved by E. R. Barnett that the tax rate for municipal purposes for the year 1920 be five mills on the dollar.

It was moved by E. R. Barnett that the secretary take up with the Department of Municipal Affairs the question of the roadway on the west side of the S. E. 1/4 9-15-19, at present occupied by D. Nicholls and still unpatented at the time said roadway was put through.

The account of the Home Grain Co., Ltd., regarding handling charges for seed oats was gone into and on motion of E. R. Barnett the amount, \$97.40, was authorized paid.

The council adjourned to meet at Lomond on Monday, Sept. 27th.

NOTES

Some twenty odd Lomond citizens have assumed a heavy financial obligation in order that the Lomond public might have the opportunity brought before them to hear and see the talent the Dominion Chautauqua has to offer on the 1921 summer circuit. The system of booking these attractions is their only objectionable feature. But as things now stand we must either submit or go without. The Press feels that the public requires a certain amount of outside entertainment to keep from becoming stagnant and now that the privilege is at hand it is up to one and all to get behind the committee and turn the venture into an unquestionable success.

The Press would impress upon everyone who is illegible to vote the importance of seeing that their name is on the voters' list. The lack of interest in the present plebescite issue may cause indifference on the part of some people towards the importance of this detail. But if one takes into consideration the fact that should a provincial or dominion election be called within the next twelve months no future opportunity would be given to secure en-

rolment, the urge of the situation begins to make an appeal. The franchise is the chief privilege of democracy. if you do not accept the responsibility of this privilege you are shirking the duties of citizenship.

For forty days and forty nights the Irish Sinn Fein hunger strikers have occupied the headlines in all the daily newspapers. Now the effect of their gallery play has been all lost since they have prolonged the strike beyond human endurance supposedly through clandestine assistance of relatives and ministering priests. We hope they either soon die or come so their senses and fight for their convictions in a rational manner.

Some one has dubbed the increasing cost of labor and all commodities the 'vicious spiral'. Surely their must be some end in sight for the present chaotic order of things. People will soon have to start in spending energy as well as money so that the world can replenish its depleted stocks of merchandise. It is beginning to look as if the people held no responsibility toward the obligation of greater production.

LOCALETS

Bob Alexander of Kinnondale moved over west with his threshing outfit this week. Jos. Guertin of Retlaw went through Lomond on Tuesday morning with his big steamer and crew, heading for the Queenstown country.

Tuesday at Travers was largely taken up with court proceedings. Martin Hendricks was fined \$50 and costs under Section 24 of the Liquor Act, giving away liquor illegally. He was remanded for further evidence under Section 23, for illicit purchase. And under Section 77 was given the benefit of the doubt and let off. Hendricks was also found guilty on two charges of allowing stock to run at large contrary to the municipal ordinance but was only asked to pay the costs of the court. Wm. Taylor was found guilty under Section 24 of the Liquor Act and fined \$15 and costs. Taylor was also remanded under Section 75. Two charges against J. Gerancho were withdrawn by the A.P.P.

of all voters in towns over 1000 population and cities in Alberta has acted as a bugle call to the temperance forces throughout the province. The first objective to be obtained is to see that every citizen who will vote dry will have his or her name registered in good time. H. H. Hull, provincial organizer, is now making a tour of Southern Alberta. He has with him as team-mate H. Arthur Barton, an ex-actor and entertainer, well known throughout the West. Mr. Barton never fails to grip and arouse his audience with his program of readings and impersonations, and his forcible prohibition address. A number of prominent speakers will be routed throughout the province before polling day and it is expected Lomond will be included in the program.

Mr. and Mrs. H. E. Elves christened their new Ford this week by taking a trip over to the foot hills. Mrs. Elves' mother returned home with them, having been visiting over there for a couple of weeks.

Amil Meyers met with a serious accident this week while riding a disc harrow. In the mix-up he was thrown against the lever, the wounds he sustained required forty-two stitches to draw them together.

Born, near Lomond on Sunday, Sept. 12th., to Mr. and Mrs. Thos. Chapman a daughter.

Miss Turner at Travers is holding an auction sale of her house and lot and her household effects on Saturday, Oct. 2nd.

FOR RENT

Half section land near Armada, 260 acres under cultivation, 20 acres summerfallowed, 90 acres summerfallowed last year, fair 4-roomed house, good barn and exceptionally good well with engine attached. Apply to A. E. Olmstead.

ESTRAY

On the premises of C. Lundgard, on Sec. 6-13-19 w4, Travers P. O., one spotted white 3-year-old steer, branded on right shoulder.

Thanks!

Having come to the end of our first six months in business in Lomond we desire to extend our heartfelt thanks to our numerous patrons who have helped to make this business a successful venture. Who Can Save the Most for You ?

IN SPITE of the high cost of clothing and the scarcity of money you can not get away from the necessity of proper clothes. Your health and happiness depend upon it. Whether you will be fit for the job for a long time in the life you choose to live, or half or three-quarters knocked out in the early stages of the game, may depend upon the clothes you wear now. The absolute necessity of proper clothing is recognized by most every man these days.

THE QUESTION OF THE HOUR should be: "Who can save you the most money on your outfit?" And if you are not very careful you are liable to make a mistake. The answer is not to be found in the price ticket. The cost per day, or week, or year, is one test. The comfort and protection it gives you is a big factor, and the appearance must be reckoned with.

YOU CARE FOR STYLE ? Certainly! Every red-blooded man does. We claim we can give you greater durability, more comfort and better style for your money. Few stores in Canada have all the advantages we have, so few, if any, can offer you the goods at our prices.

HOW CAN WE DO IT ? The answer is simple. We know how, when and where to buy. We buy in conjunction with other large distributors. We have exceptionally small operating costs.

HIGH-BROW DOPE

S. E. Post.—Once upon a time, in a day when fairy tales were true, there lived in the country a family of grasshoppers and a family of ants. Some authorities incline to the belief that the grasshoppers were addicted to the jazz dance and the fiddle, but one is at liberty to doubt this. The grasshoppers were industrious. They worked in the field side by side with the ants, and they wore good clothes and chewed good tobacco.

In those days, as now, the first impulse or instinct of mortal or insect was to fill his stomach. If men could eat without working few would work. The grasshoppers worked diligently at the task of gathering herbs and grains, but as fast as they gathered they consumed, so that the setting sun found them none the richer save for a comfortable fullness about the middle.

The ants did not neglect the business of eating. They fared well, but they had the savings-bank habit and they did not wear silk shirts while performing tasks that suggested overalls.

The grasshoppers called the ants tightwads. They did not use this expression in the presence of the ants. It is as well to keep on good terms with a tightwad. Perchance one may need to borrow from him before the next pay day arrives.

Through the long summer the grasshoppers toiled and fed their faces, dressed to impress the neighbors and petted their appetites, and when the first frost of an early winter killed the green things in the field not one of

them had a square meal in reserve.

When grasshoppers find the rations short they cast about to find someone on whom to fix the blame. As these stood in groups about the dismal field making talk concerning the injustice of the general scheme of things, one of their number who enjoyed making phrases, hopped on a withered flower stem and unburdened his mind.

"We would not be hungry," he declared, "if we had the courage to demand our rights. There is enough wealth in the world for everybody. All that we ask is a fair division. We are dead broke, while the ants have their barns filled to overflowing. Is this right? Is this justice? Is this democracy? I tell you, my downtrodden brethren, that we are victims of a greedy and hateful system and shall all miserably perish unless we establish universal brotherhood and divide this supply of food accumulated by the ants."

I realize that all this seems incredible, but I hasten to assure you that it happened once upon a time, in a day when fairy tales were true and grasshoppers knew nothing of savings banks and had no brains worth mentioning.

o o o

We are so terribly afraid of making a false step often that we refuse to do even that which we can. We cannot bear the thought that some one is going to criticize us, possibly ridicule our method or action.

It's a good thing Columbus was not imbued with this self-consciousness. Else America might have remained in the unknown much longer. How fortunate that Marconi, Bell, Edison, Burbank, Nansen, and Livingstone never allowed the thought of a possible false step to keep them back from achievement. Else how much narrower the scope of modern knowledge and utilities would be.

Mistakes? We all make them. Some of us are better at hiding the ones we make than are others, but each one of us has happenings in life which bring hot blushes as the thought comes of the time we have not measured up to what we might have measured.

The only deliberately foolish thing is the not owning up when the mistake becomes evident, the trying to bluff it through, the putting on of a false front to hide the ruin behind. Of course we do not have to take the whole world into our confidence. As long as we are sincere with ourselves the rest does not matter so greatly.

We are not on the path to true growth and to the making of all we can of the place where we are until we can sit down and face ourselves, alone, and recognize our own errors and mistakes of judgment, and then firmly resolve, that we do our best to right them. Our friends will respect us all the more for a wise change of front. What others say we do not need to

take to heart.—Ex.
